

# California OES Weather Threat Briefing

Wednesday, June 5, 2019  
9:00 AM PDT

**Day 1: Chance of showers and thunderstorms over the Sierra and adjacent foothills today. Moderate Heat Impacts are expected today across the Sacramento and San Joaquin Valleys.**

**National Weather Service**  
*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**06/05/19 - 06/11/19**

## **Wednesday**

- Heat-related impacts are possible across the Sacramento and San Joaquin Valleys today and Wednesday
  - Moderate Heat Risk expected for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration
- Isolated showers and thunderstorms continue to be possible, primarily over the Sierra, but in general a drying trend is expected across the state.

## **Thursday-Friday**

- A cooling trend is expected across the state for Thursday-Friday, significantly reducing heat-related impacts
- Although isolated showers cannot be ruled out, dry conditions are expected across much of the state for the latter half of the week
- Gusty winds are expected across the mountains and deserts of Southern Region on Thursday and Friday.
- Gusty winds are also possible across portions of the Inland Region Thursday and Friday, and combined with drying grasses, will lead to enhanced fire weather concerns.

## **Saturday-Tuesday**

- A warming trend is expected heading into the beginning of the work week, with heat related impacts likely returning, especially to the Central Valley.
- Gusty winds and enhanced fire weather concerns will continue to be possible through the weekend and potentially lingering into early next week.

# CALIFORNIA WEATHER IMPACTS

06/05/19 - 06/11/19
